Imran Khan

Full-Stack Engineer / AI Backend Developer / Mumbai

muhammadimrank034@gmail.com
+91 7506190224 / Mumbai, India
LinkedIn / GitHub / Portfolio

PROFILE

Full-stack engineer and AI backend developer who turns complex workflows into dependable products. Experience spans healthcare APIs, fleet operations, billing and payout systems, realtime collaboration, and practical AI infrastructure. Comfortable owning implementation from data model and API design through frontend delivery, debugging, and deployment.

150+	5+	60+
PRODUCTION FEATURES SHIPPED	COMPANIES USING DRIVEACCESSIBLE	PRODUCTION ISSUES RESOLVED

EXPERIENCE

AI Backend Developer

Current

Boston Institute of Analytics India / Mumbai

- Built article APIs with slug-based detail, owner draft access, published-status rules, and complete create responses.
- Improved job discovery and applications with fresher flags, multi-city/state data, applied-job search, recommendations, recent applications, visibility rules, and pagination.
- Strengthened resume and profile workflows with deletion, status checks, readable filenames, file compression, URLs, and profile-strength integration.
- Improved feed and media responses with per-user reactions, user slugs, reusable hospital-logo handling, normalized paths, and serializer-backed application responses.

Associate Software Engineer

Oct 2025 - Mar 2026

SvayambhuTech / Mumbai

- Owned end-to-end development and production operations for DriveAccessible, adopted by 5+ companies within four months of launch.
- Built booking-conflict logic, billing and renewal workflows, operational dashboards, role-based access controls, and a public SEO site.
- Resolved 60+ production issues across edge-case bugs, workflow fixes, and feature deliveries.

SELECTED PROJECTS

DriveAccessible
PRODUCTION SAAS / PHP / JavaScript / MySQL

Fleet-management and rental product with availability checks, billing, payments, PDF invoices, renewals, operational dashboards, and role-based access.

AgentLens
AI RELIABILITY / Python / FastAPI / PostgreSQL / Docker

Routes requests across eight model providers using health-aware scoring, circuit breakers, retries, telemetry, rate limiting, and explainable failover decisions.

BillingOS
BILLING INFRASTRUCTURE / Node.js / React / PostgreSQL / Redis

Multi-tenant subscription billing with proration, invoices, retry workflows, idempotent webhooks, rate limits, and PostgreSQL row-level security.

Payout Engine
FINTECH BACKEND / Django / PostgreSQL / Celery / Redis

Models money movement as immutable ledger entries with integer arithmetic, row locks, idempotency, atomic refunds, and stuck-job recovery.

TalkingResume / ResumeIQ
AI RECRUITING / React / Vite / Firestore / GitHub API

Evidence-led hiring workspace that connects resume claims to GitHub repositories, commits, projects, and source files with citations.

Office Operations Hub
WORKFLOW PRODUCT / React / TypeScript / PostgreSQL

Schema-led company operations workspace for employee, finance, procurement, IT, legal, travel, workplace, and feedback workflows.

TECHNICAL SKILLS

Languages	Python, JavaScript, TypeScript, PHP, SQL
Backend	FastAPI, Django REST Framework, Node.js, Express, Laravel, REST APIs
Frontend	React, Next.js, Vue.js, Vite, Tailwind CSS, Framer Motion
Data	PostgreSQL, MySQL, MongoDB, Redis, Supabase, pgvector
AI	RAG, semantic search, vector search, agent workflows, OpenAI, Anthropic, Gemini, speech-to-text, text-to-speech
Infrastructure	Docker, Linux, GitHub Actions, CI/CD, NGINX, Azure, GCP

EDUCATION

Bachelor of Science - Information Technology
2022 - 2025

MVM College, University of Mumbai / Mumbai, India
